Our Handmade Tea is grown, free of herbicides, pesticides or any chemicals, on the rain-forested slopes of Saddleback Mountain in Foxground, on the NSW South Coast. The tea is hand-picked during the growing season (October to April) each year and hand-processed on-farm to create green tea, black tea and 'winter' tea. The Green Tea has a bright gold colour and soft, herbaceous flavour. The black tea has a rich, amber colour and mellow flavour with spicy, 'woody' notes. The 'winter' tea is the last pick of the season and has a sweet, toasty flavour. Lavender Green Tea is a blend of green tea, lavender flowers and mandarin zest and has soothing floral and 'minty' flavour undertones. Lemon Green Tea is a blend of green tea, lemon balm, lemon verbena, lemon grass and lemon zest, giving it a fresh, zesty aroma with a clean, green tea flavour.
